6 IMPORTANT INFORMATION

- Model event for EYOC participants will be held at Vratarski Hrib, located directly across the road from the relay venue. Due to recent changes caused by the limited size of the relay map area, the EYOC Tour middle distance race will also be held at Vratarski Hrib, using the same map as the model event. This means that if you participate in the model event on Wednesday as a team official, you will be running on the same map again on Saturday, although the courses will, of course, be different. This does not present any issues regarding final standings on eyoc tour and is only relevant for team officials.
- Any complaints may be submitted at the readout area and will be decided by the timing official. The timing official's decision is final.
- Maps will be printed on waterproof paper.
- Any changes to classes or start times must be handled at the info desk at the competition center before the first start of each stage.
- More information regarding EYOC competition is available in Bulletin: EYOC 2026 bulletin
- Updates will be published on our website: www.eyoc2026.si
- The event will be audio and video recorded for promotional purposes of the event, the Federation, and orienteering. By registering for the competition, competitors consent to the use of such recordings.
- All competitors participate in the competition at their own risk.
